

I do not want to see KLOVE forced off the air by an LPFM broadcaster. KLOVE is the only radio station my family listens to in our home and cars. If it goes away we won't just tune into a different station because there are no other stations in our area that offer the consistent programming of KLOVE. We will not be listening to the radio! Not only will my family miss out but so will the rest of the local community. KLOVE is a great resource for upcoming Christian events in the area with its community calendar as well as conservative national news updates. Other stations do not provide these same services so our community will be at a loss. KLOVE does more than play music it touches lives, it needs to be on the air and that is why my family financially supports KLOVE. We do not want to see it be replaced due to this new LPFM broadcast service. Please do not take away our radio station!
